Standard Convection Ovens

Blue M Asia standard convection ovens are ideal for a number of laboratory and industrial oven applications, including moisture drying, epoxy curing, and aging of electronic components and devices. These ovens offer great performance of non-hazardous materials.

Equipment Specifications

- Temperature Range: Ambient to 300°C
- Temperature Resolution: 0.1°C
- Temperature uniformity: ±1.5% of set point
- Forced convection
- Over temperature protection
- Inner oven made from SUS #430 stainless steel
- Exterior constructed of painted cold rolled steel
- Ramp rate of 15°C / minutes average
